

# DUB 7.5 with GROUND ANCHOR SYSTEM

Works on Rectangle or Tri-Base Systems

Same Base Uses 2 1/2" Square Tube, or 2 7/8" Round Pipe

- ~Breaks Away 3/4" Above the Anchor for Low Vehicle Clearance~
- ~Dent Bolt Meets NCHRP 350 Criteria/FHWA Approved~
- Ground Anchor Assembly is a Non-Slip base System
- ~Omni-directional Breakaway Bolts are Required to Perform Properly~
- ~No Torque or Keeper Plate Required~
- ~Use of the Dent Bolt Reduces Material and Labor Costs~
